VANDERBILTS ARE IN BIG RAILWAY COUP

Sum of $70,000,000 Is Said to Be Involved.

ENGINEERED IN NEW YORK CITY

Vanderbilts After Securing Lion's Share of Great Traffic Originating in the City of Chicago and Its Vicinity.

Chicago, June 22.—The Record-Herald Friday said:

Final steps are being taken in New York to complete a $70,000,000 railway coup which the Venderbilts have engineered to secure the lion's share of the tremendous traffic which originates in Chicago and the surrounding territory, as well as the great tonnage which passes through and around Chicago.

The culminating financial transaction in this great traffic deal, which William H. Newman, president of all New York Central lines, has been successfully playing in the interests of the Vanderbilts, is the leasing, with right to purchase, of the outer belt line from the Chicago Junction Railway company

Supplementing this is the leasing for a term of 99 years of a part of the tracks of the Chicago Terminal Transfer Railway company, which forms the connecting link in the complete inner belt railway system which the Vanderbilts are securing.

President John A. Spoor of the belt road, confirmed the lease and declared that before the end of the year, the outer belt line, which his company now owns and operates, would pass entirely into the possession of the New York Central lines.

Another integral part of this great traffic coup which the Vanderbilts have been quietly perfecting for the past five years is the Chicago, Indiana and Southern road, which they have built directly south from Chicago to Danville, where it connects with the Big Four road. It is a part of the comprehensive traffic campaign which they have carefully planned and executed to extend this system straight south to the gulf before the opening of the Panama canal.

Accordingly, when the canal is opened, the New York Central lines will, through the expenditure of at least $125,000,000, and possibly $150,000,000, have the whip-hand over the greatest tonnage producing area in the world.

ACTRESS TIRES OF LIFE.

Took Laudanum and Fought Those Who Tried to Save Her.

Atlanta, June 22.—Tired of life for some reason that she refused to divulge, Miss Margaret Levy, a beautiful young actress of 19 years, swallowed laudanum at her boarding house Thursday morning.

When the Grady ambulance came for her she fought the officials savagely, and begged them to leave her to die. She was compelled to enter the ambulance only after a hard struggle, in which she displayed wonderful strength. Prompt attention at the hospital saved her life, and she asserts that she wil try it again on the first opportunity.

Miss Levy was born in Mexico City and has Spanish blood in her veins. It shows in her coal black hair, brilliant black eyes and soft, olive complexion. She possesses unusual beauty. She is said to have had many admirers here.

KILLED HIMSELF IN BATH ROOM.

Prominent Business Man of Macon Takes His Life.

Macon, Ga., June 22.—N. B. Corbin, vice president of the Exchange bank, general manager of the Macon Grocery company, wholesale; director of the Macon Chamber of Commerce; director of the Central Manufacturing company, and a recent vice president of the Southern Wholesale Grocers' association, committed suicide by shooting himself with a shotgun at the beautiful family home on Vineville avenue. Without a word from him or any note expressing his intentions he dressed as usual and was apparently engaged about his morning duties when he seized the implement of death and entering the bath room, fired the fatal shot.

Members of the family were about their duties, and Mrs. Corbin and her two daughters, Mrs. Stone and Miss Maggie Corbin, were the only persons remaining in the house when the report of the gun attracted their attention. When they rushed into the bath room they found Mr. Corbin gasping in death.

Dr. M. A. Clarke, the family physician, was summoned, and it took the merest examination to reveal that the aim of the victim had been sure. He lasted only a few moments after the shot was fired.

Although there was not one particle of information to be gathered even by members of the family as to why Mr. Corbin shot himself, it can safely be attributed to failing health and consequent mental derangement.

EIGHT FIREMEN INJURED.

Burning Porch in an Atlanta Fire Fell With Them.

Atlanta, June 22.—Fireman G. W. Waits, of No. 7 company, was probably fatally injured, and seven others seriously hurt Friday morning at 3 o'clock, when the porch of the burning residence of T. C. West, in West End, fell in.

Five of the injured men were on the roof of the porch when it fell, while three men were under it. Assistant Chief Henry P. Haney saved himself by catching at the side of the house with one hand and swinging until rescued. One hand was burned.

The injured men are G. W. Waits, probably fatally injured; Cliff A. Smith, Assistant Chief Henry Haney, F. F. Anderson, Jonah Hobson, John Rozetti, Captain W. H. Close, J. P. Leak.

Fireman Waits, the worst injured, was sent to the Grady hospital. His spine is injured, and he is believed to be in a dangerous condition.

The other injured men were sent to their homes. None of them are believed to be dangerously hurt.

Big Victory for Prohibition.

Cartersville, Ga., June 22.—By a vote of almost twenty to one, Bartow county Thursday declared that this county will join the ranks of the prohibition counties of Georgia. The consolidated vote of the county was 1,715 against the sale of whisky, and 94 for the sale of whisky. With flags and banners flying, and with women and children singing and praying upon the streets, and at the polls, the prohibition people of Cartersville and Bartow county administered this stinging blow against the liquor traffic.

Flames Destroy Large Saw Mill.

Mobile, Ala., June 22.—The saw mill of the extensive plant of the K. C. Lumber Company at Lucedale, Miss., was destroyed by fire Thursday entailing a loss of $70,000, partly covered by insurance. The mill had a capacity of 100,000 feet daily. The big planing mill of the plant was saved, but a large quantity of lumber was destroyed. The town of Lucedale, 40 miles from Mobile, was brought into existence by the mill, and it will suffer through the large number thrown out of employment.

U. S. LAND OFFICE AS AUCTION ROOM

Lively Scene Resembling In Miniature a Stock Exchange.

BIDDERS FOR RIGHT TO ENTER

A Tract of Two Hundred and Forty Acres of Land on Gasparilla Island, Charlotte Harbor, Recently Surveyed and Opened by Government.

There was a lively scene in the United States land office in this city a day or two recently, which resembled for a time a stock exchange on a miniature scale, so far as excitement was concerned.

The occasion of this commotion was an auction sale of right to enter a tract of 240 acres of land on Gasparilla Island, in Charlotte Harbor, near Punta Gorda, which has been but recently surveyed and opened up by the United States Government.

Hon. Henry S. Chubb, register, proved himself upon this occasion an apt auctioneer, and succeeded in getting a good bid.

There were in the neighborhood of fifteen bidders, and the right was knocked down to Hon. John P. Wall of Tampa, representing James M. Gifford of New York. Col. Wall's bid varied from $1.25 to $2.75 per acre, according to the nature of the soil. This does not give the bidder possession of the land, but merely the first opportunity to file entry papers.

This land is of a diversified nature, and is valued at $100 per acre.

MR. PICKETT'S CORRECTION.

Does Not Live On Hot Air and Newspaper Puffs, But Wants Things Right.

Editor Sun—I do not live on hot air and newspaper puffs, but if my name appears in public print I want the statement to be near correct.

I saw in your issue of the 20th that I am preparing to commence a brick store 25x60, when at that time I had already commenced a block eighty feet front and sixty feet deep, to be cut up in three store rooms.

I hope to have these buildings completed in sixty days from date.

TRIED TO BURN WAY TO FREEDOM

But Prisoner Was Himself Fairly Well Roasted.

WILLIAMS WANTED LIBERTY

He Was Arrested at Newberry Upon a Charge of Assault With Intent to Murder—Fired the Jail, But Failed to Accomplish His Purpose.

Because Tom Williams, a negro who was in the Newberry jail upon a charge of assault with intent to murder, tried to burn his way out of prison, he was himself severely burned without accomplishing his purpose, as the fire was discovered in time to save the building. Williams, however, was in the thickest of the flames, being confined in the cell where he started the fire. He will now languish in the county jail here, having been brought to this city Saturday by Constable J. D. Sifford.

Williams will now have to face two charges, that of which he was arrested, and arson, which is a serious crime in this State, being a capital crime.

Fortunately the flames were discovered in time to prevent the escape of the prisoner and save the building.

GAINESVILLE GUARDS PREPARING TO SHOOT

Will Send a Crack Team to State Range in St. Augustine.

OFFICERS ARE CRACK SHOTS

Captain Blanding Has Made a Record in National Shoots as Have Other Members of the Guards—Team Strengthened by Lieut. Warren.

The rifle team of the Gainesville Guards, Company H, Second Infantry, Florida State Troops, which is regarded as one of the most competent when it comes to markmanship in the entire State militia, is practicing for the coming State shoot, which will be held in St. Augustine, on the State range, some time during July.

This team is under command of Captain J. W. Blanding, who has himself made an enviable reputation in the international shoots, having attended the national matches annually for the past three years in command of the Gainesville squad, and who has made some excellent records for markmanship.

The team this year will be strengthened by the addition of First Lieutenant Shields Warren, formerly with the Franklin County Guards, Apalachicola, and who is an excellent shot. Lieutenant Warren accompanies the squad on each shoot, and has made some marvelous shots on the local range. He holds from the adjutant-general's office of the Florida State Troops a certificate of efficiency in markmanship.

The national shoot will be pulled off at Fort Perry, Ohio, in September. The Florida team will be selected from the records of the State shoot, and it is safe to predict in advance that the Gainesville Guards will be strongly represented, as on former occasions

THE OAKS WILL BE MODERN.

Extensive Alterations and Repairs Being Made to This Hostelry.

When the Oaks Hotel, which is desirably located on East Main street N., surrounded by magnificent oaks, from whence it derives its name, is thrown open to the public about the middle of July, the hotel would hardly be recognized by those to whom the place has been familiar for years.

The building, which is owned by Major W. R. Thomas, has been leased for a term of years by James Van Allen, a hotel man of experience. The building is being thoroughly overhauled, altered and repaired, both exterior and interior, and when completed will be up-to-date in every respect.

One of the attractive features of this hotel is the inside finishing. The woodwork throughout will be white, while each room will be papered differently. The wide verandas, both up and down, will make the resort all the more attractive, especially to tourists, to whom the management proposes to cater during the season. This does not mean, however, that the general commercial and transient trade will be neglected.

The building has been equipped with a thoroughly modern plumbing system, bath and lavatories being conveniently arranged throughout the house.

The office will be large and handsome, and the same may be said of the dining-room. In all, the Oaks will be a modern hotel in every respect.

It is the intention of Mr. Van Allen to beautify the grounds with a flower garden and lawn which will in itself make a pretty little park in front of the hotel.

A SERIOUS ACCIDENT.

Tom Covington Fell from High Elevation—Leg and Arm Broken.

STATE NORMAL NOW WELL UNDER WAY

Students from Various Sections of State in Attendance.

ATTENDANCE WILL BE LARGE

Number Arriving Every Day, and Indications Are That Number of Enrollment Will Reach 250 Pupils Before Closing of the Term.

From Thursday's Daily Sun.

The State Normal which opened under such favorable conditions at the Gainesville Graded and High School building Monday morning, and at which there was present a most encouraging attendance, considering the first or opening day, still increases in point of number, and the indications are that before the end of the present week there will be a heavy enrollment.

Principal Dr. W. F. Yocum, who is dean of the University of the State of Florida, feels very much encouraged, and believes that the enrollment before two weeks will have elapsed will exceed two hundred, with a possible maximum before the close of the term, which will consume eight weeks, of two hundred and fifty.

Dr. Yocum and his force, which is one of the most competent that could have been gotten together in the State, went immediately to hard work, with the result that the system was organized and in excellent working order before the closing of the first day.

The students, many of whom are no strangers here, are delighted with the faculty, Gainesville, and their surroundings generally, and have made a united resolution to make this one of the most successful normal scholastic years the State has ever enjoyed.

Teachers Were Entertained.

The first function of the term extended the teachers was on Tuesday evening, when, at the elegant home of Col. and Mrs. J. M. Delicious fruit punch was served during the evening.

JONESVILLE NEWS NOTES.

Jonesville, June 20.—W. H. Pickett is at the home of his parents, Mr. and Mrs. H. A. Pickett, spending his vacation. He has been attending college at Abbeville, Ga.

Wonder who it was that was so badly disappointed Sunday? Too bad.

The picnic which was held at the new school building on June 14, in honor of G. H. Sanchez', Sr., seventy-fifth birthday, was quite a success. The dinner, which the good ladies of Jonesville know so well how to prepare, was as nice as it was plentiful. Ice cream was served, and altogether it was a day never to be forgotten by those who were so fortunate as to have attended. All wish for Mr. Sanchez many more years with just such a time at each anniversary.

W. J. Hamilton has moved to Newberry and gone in the livery stable business. Mr. Hamilton has many friends who regretted very much his departure, and Newberry is to be congratulated in being so lucky as to get him for a citizen.

The preparations for a grand time at the church at this place on Friday and Saturday before and the fifth Sunday are being carried on. All are invited. All that do not come will regret it.

S.S.S. A CERTAIN SAFE TREATMENT

Even if mercury and potash could cure Contagious Blood Poison the condition in which these strong minerals leave the system would make the "cure worse than the disease." But they cannot cure the vile disorder they can only cover up the symptoms for awhile or mask the disease in the system, but as soon as the treatment is left off the hideous symptoms return. Mercury and potash eat out the delicate lining of the stomach and bowels, produce chronic dyspepsia by drying up the gastric juices, cause the teeth to decay, and often completely break down the constitution, and when they are used in large quantities, the bones become affected, while the disease for which one has so long taken this destructive treatment has not been cured. Contagious Blood Poison is a disease it will not do to trifle with. It is a vile, dangerous and destructive disorder. When the blood becomes infected with its virus the mouth and throat ulcerate, hair and eyebrows come out, glands in the neck and groin swell, copper-colored spots appear on the flesh, and in severe cases sores break out on the body, the finger nails drop off and the sufferer is diseased from head to foot. S. S. S. is the only known antidote for Contagious Blood Poison—the one remedy that is able to get to the root of the disease and force out every particle of the poison so that there are never any signs of its return. It is purely vegetable, made entirely from roots, herbs and barks of known curative value. Instead of leaving bad after-effects as some medicines do, S. S. S. tones up every part of the system and puts every part of the body in perfect health. It will also remove any lingering effects of former mineral treatment while eradicating the poison from the circulation. Special book on the home treatment of this disease and any medical advice desired furnished free to all who write.

Judge Mason does not believe, how-er, that this prospective groom is e original "General Stonewall," as is at present employed on a naval ores farm at Orange Heights. How-er, the name is suggestive of great en, and Judge Mason may truthful-state that he has issued a mar-ge license in the name of this dis-nguished personage.

MR. POOSER IMPROVING.

Victim of Railroad Accident Is Getting Along Nicely.

Trainmaster A. I. Pooser of the Atlantic Coast Line, who sustained a severely sprained ankle in a head-on collision between the Citra and High Springs local and the Palatka freight at Micanopy junction a few days ago, and who was brought to his home in this city, is getting along finely, which will be gratifying news to his many friends not only in Gainesville, but along the line.

While this accident was in no way serious, it was nevertheless quite painful, and has confined the trainmaster to his bed for several days.

THE CIRCUIT COURT.

Case of State vs. J. W. Brown for Embezzlement Resulted in Mistrial.

It was a slow day in the circuit court Thursday, the entire day being virtually taken up with a continuance of the case of the State vs. J. W. Brown, charged with embezzlement, and which occupied the greater part of the session Wednesday afternoon.

After a long list of witnesses, the testimony of whom the jurors listened to most impatiently, the jury retired, but was unable to agree upon a verdict, whereupon the court adjourned until 9 o'clock Friday morning.

Every Man His Own Doctor.

The average man cannot afford to employ a physician for every slight ailment or injury that may occur in his family, nor can he afford to neglect them, as so slight an injury as the scratch of a pin has been known to cause the loss of a limb. Hence every man must, from necessity, be his own doctor for this class of ailments. Success often depends upon prompt treatment, which can only be had when suitable medicines are kept at hand. Chamberlain's remedies have been in the market for many years and enjoy a good reputation.

Chamberlain's Colic, Cholera and Diarrhoea Remedy for bowel complaints.

Chamberlain's Cough Remedy for coughs, colds, croup and whooping cough.

Chamberlain's Pain Balm (an antiseptic liniment) for cuts, bruises, burns, sprains, swellings, lame back and rheumatic pains.

Chamberlain's Stomach and Liver Tablets for constipation, biliousness and stomach troubles.

Chamberlain's Salve for diseases of the skin.

One bottle of each of these five preparations costs but $1.25. For sale by all druggists.

Approaching Marriage.

Friends of the contracting parties are anticipating with a great deal of interest the approaching marriage of J. A. Hague and Miss Beecher Rutledge, both of whom are now residing at Tyler. Mr. Hague is the efficient agent of the Atlantic Coast Line at that point, while Miss Rutledge, who was for some time a school teacher, is now postmistress.

Congratulations are in order in advance.

Do Not Neglect the Children.

At this season of the year the first unnatural looseness of a child's bowels should have immediate attention. The best thing that can be given is Chamberlain's Colic, Cholera and Diarrhoea Remedy followed by castor oil as directed with each bottle of the remedy. For sale by all druggists.

ROUGH HOUSE AT CHURCH MEETING

Negro at Windsor Wanted to Clean Out House of Worship.

OFFICER STORY CAME IN

He Placed the Negro Under Arrest for Disturbing Public Worship, and He Was Fined $19.22 or Two Months in Jail.

Windsor, June 20.—Windsor was lively last Sunday night. At the negro Baptist church, while the congregation was having a good time singing and praying, Josh Cotman, another negro whom it is said had been partaking a little freely of John Barleycorn, made a raid on the house and wanted to wipe up the floor with his good brothers and sisters.

Just as excitement was at its height Deputy Sheriff L. E. Story, who had been notified of the disturbance, closed in upon the meeting and placed Cotman under arrest.

Cotman was arraigned before Justice of the Peace Zetrouer upon a charge of disturbing public worship. The prisoner pleaded guilty, but expressed his regrets of this uncalled for action. Upon his promise never to be guilty of such action again, the justice made the fine light, $8 and costs, aggregating $19.22, or two months in the county jail.

The public appreciated Deputy Story's action in the matter.

MILLARD HOME BURNED.

One of the Oldest Residences in Section Gone Up in Smoke.

There was a fire Wednesday night at Millard Station, on the Seaboard Air Line, about three miles from Gainesville, which destroyed the famous old Millard home, which for years was one of the hospitable homes of the county, and where many a weary traveler and invited guest have spent a hospitable time with Captain Millard, founder of the statoin, and his family.

Captain Millard, who was one of the early settlers, erected this home nearly thirty years ago, which at that time was a palatial residence for this section of the country. He was extensively engaged in farming and the mercantile business at that time, and nothing was too good for his friends. On divers occasions he has given house parties and entertained them in every way, and for hospitality the name of the Millard home stood at the head.

At the time of the fire the residence was occupied by a number of colored people, many of whom are engaged in the packing houses of J. D. Stringfellow and C. A. Colclough, both of whom are large melon growers and have immense packing houses in that vicinity. The origin is not known, but the fire having started in the attic, it is supposed that it was caused by rats.

Baseball Players and Foot Racers.

Louis J. Kruger, ex-champion long distance foot racer of Germany and Holland, writes, Oct. 27, 1901: "During my training of eight weeks' foot races at Salt Lake City, in April last, I used Ballard's Snow Liniment to my greatest satisfaction. Therefore, I highly recommend Snow Liniment to all who are troubled with sprains, bruises or rheumatism." 25c, 50c and $1.00. Sold by W. M. Johnson.

Fine Postal Collection.

To Miss Estelle Beal of this city belongs the credit of probably having received by mail at one time the largest collection of postal cards ever received by any one person in the State, the number aggregating forty-seven.

These were souvenir postals sent by a friend, comprising a collection of capitol buildings throughout the United States. Miss Beal is naturally very proud of both the distinction of this big "batch" of mail as well as the thoughtfulness of her friend.

Ancient Rome

Is now merely a memory of the past. Ballard's Snow Liniment is the family liniment of the twentieth century. A positive cure for Rheumatism, Burns, Cuts, Sprains, Neuralgia, etc. Mr. C. H. Runyon, Stanberry, Mo., writes: "I have used Snow Liniment for Rheumatism and all pain. I can't say enough in its praise." Sold by W. M. Johnson.

THE OCEAN HIGHWAY.

Plans have been definitely completed which will permit the tourists to use the extension of the East Coast railway to Key West next winter, and the announcement should create great interest throughout the worlds of fashion and travel which touch each other at so many points. Perhaps all Florida that can be comfortably reached has been seen, but those who come early and so desire can write of the new scenery opened along the canal now extending in an unbroken highway from St. Augustine to Miami, supplemented by that engineering triumph which bridges the ocean from Miami to Key West with the exception of one short break where a safe and comfortable ferry will be provided until it has been closed.

Practically a new Florida is now offered, and in addition a view of a triumph of modern engineering ability that has no rival in all the world. The scenery is new—to the eyes the observation car seems to rest on the ocean itself, and to the sufferers from sea sickness a voyage is offered without the suspicion of wave motion. The wealth of tropic seas will lie under the car windows—stops may be made on the keys, where the gentle waves murmur at the feet of the visitors, and the sea-gardens are as plainly visible as those of the land—their flowers and miniature forests can be studied and admired in comfort, and with certainty of a return by rail at a stated hour. What a world for the picnic, what a museum for the naturalist, what a joy for the mere sight-seer!

Millions have been spent to provide the highway, which will continue, practically across the great river of the Gulf Stream to Cuba, for when the train runs into Kew West they will be transferred to monster ferry boats, and carried unbroken to the island. The British channel has not been bridged, though projects for tunneling and steamers of strange construction to obviate the motion have been rejected after trial; what Europe has not done, America has provided. And the trip from Miami to Key West by rail will be an experience alone worth a visit—from fairy isle to isle winds the road and over the waves themselves on great arches of concrete with the tides foaming beneath—such a conquest of the ocean as a despot king dreamed he could accomplish only to realize the helplessness of millions of fighting men.

Once a day on the Ocklawaha was held to furnish the acme of Florida sight-seeing as a steamer glided through the primeval forest, and the branches of giant trees swept the deck. Then the sun-kissed Indian river became the fashionable road. Next the trains of the East Coast plunged through the wilderness transforming it into homes and gardens, and the new tourists were told they had missed the first night at the greatest show on earth. But—enterprise ever finds fresh worlds to conquer, and industry makes new demands on capital and thought. This winter Florida offers two unsurpassed attractions—one for the new motor boat, and the fishermen, and the other a rail laid on the mane of old ocean.

Yet another year and the Florida railway will be practically extended to Cuba, while the Florida canal will be opened into the St. Johns, and so to be joined in time to the waters of the Chesapeake. "The sun do move," said the negro preacher, and Florida never stands still. "I have found nothing more wonderful or more magnificent than I have seen in my own country," said a prominent American upon returning from a trip around the world. Next winter two new attractions will be offered by Florida to the list of America's wonders and delights. See them and revive your patriotism.—Times-Union.

VIRGINIA'S CANDIDATE.

Senator Daniel has clearly stated to The New York World his own position on the discussion of his availability as the Democratic candidate for President by declaring that "Neither the South nor any section should, in my opinion, have a candidate for any place on the Presidential ticket on account of its locality. The country is one, and the Democracy as yet is one.

"The chief requisites of candidacy are ability, acceptability, and availability. That fact should determine the choice. Expediency should be the handmaid of principle, and cannot be overlooked in the present situation of the Democratic party. Ideas and principles should prevail and guide, and expediency should serve them."

And then after eulogizing others mentioned for the same honor he said: "Take the right man from anywhere—New England, the West, the North, the South."

TARIFF REDUCTION.

The goods imported from Germany are virtually, under the new agreement, allowed to enter at the value certified by the German Chambers of Commerce. Thus the duty on German goods is less than that exacted upon the products of other countries which are subject to an ad valorem rate of duty, because the lower the value at which imports are appraised the less the duty. Until we allow France, England and other countries the same favor, it can hardly be called a square deal. The Manufacturers' Association and the standpatters object to this agreement with Germany because it thus reduces the rate of duty in this round-about way.

There is to be a new bureau in the immigration service, known as the Division of Information. It is to deal with the distribution of immigrants to the parts of the country where they will do the most good and where the country will do the most good for them. This will be good news to the States of the South and West, if it prove true. The Bureau of Information is expected to keep in touch with the Governors of the several States and with State immigration officials, and even with board of trades and similar commercial bodies. It is to accumulate all the information the immigrant can need in picking out a good location for himself and family. The conception of the scheme is good, and it only remains to be seen whether the immigrants can be induced to take advantage of it or whether it will take some compulsory law to distribute them advantageously over the more thinly settled sections of the country.

The Orlando Daily Reporter-Star says it is suggested that the candidates for United States Senator, for Governor, for Congress, for the various cabinet offices and all minor State positions, have a "Coming Out Party" in Ocala in the early fall. A big barbecue and basket picnic and general good time will be the result and the affair promises to be one of the most unique in history. And how nice it will be for the blushing candidate to be led forth in low neck, and short sleeves before the gaping crowds. And after they have made their debut they can be placed in separate stalls marked Exhibit A, and Exhibit B, and the vast throng can pass along the cages and pick the winners. And all the editors can hold the left hand behind the back as they pass the candidates, which means "itching palms," a great game when it is played right. O, yes, have the "Coming Out Party" by all means.

Some of the Democratic eggs Incubator Roosevelt has hatched out are fighting roosters now.

FIRE AT CHASE'S CAUSES BIG LOSS

Second Fire Within Two Months at Turpentine Retort Plant.

PLANT WAS JUST RE-INSTALLED

Had Been Running Only a Few Days. Origin of Fire Said to be An Overcharge—Loss Will Aggregate About Twenty-five Hundred Dollars.

It seems that fate is against the successful operation of the Chase turpentine retorts, which are located about two miles to the north of the square, since within the past two months there has occurred two serious fires, destroying retorts upon both occasions.

No sooner had the retorts burned about two months ago been replaced than a second fire of the same nature occurred, again destroying the same property as was destroyed before.

About 7:30 o'clock Friday morning a dense, black smoke was seen curling into the air north of the city. The volume, which was funnel-shaped, resembled the clouds of an approaching cyclone, and those who noticed them felt sure that a fierce fire was raging, and they were correct, as an hour later word came that a second fire had destroyed a large retort of the Chase plant.

The plant being beyond the fire limits, it was impossible for the department to render any aid. Even in the event that aid could have been rendered, the nature of the material, being spirits of turpentine, could not have been extinguished.

The loss of these retorts, which have just been installed, was said to have been caused by an "over-charge."

The damage will aggregate about $2,500.

The Sun, in its write-up of the Chase retort fire Saturday morning, was misinformed regarding the loss, which the reporter is informed will not exceed $400. Since the loss is a great deal smaller than was recorded, it affords us pleasure to make the correction.

The Telepost Company is now inaugurating a new system of telegraphy known as the Delany system, by which it is claimed that one thousand words per minute can be sent over a single wire. If it has the merit claimed it will knock the other systems of telegraphy into smithereens.

Col. T. J. Laud Brown, of Tampa fair fame, has positively announced his candidacy for United States Senator to succeed Senator Mallory. This is taken to mean that Congressman Sparkman will not enter the race.

It is really amusing to observe the alacrity with which some people leap into the political arena. They do not seem to comprehend the general definition placed upon the word "taffy."

"There is nothing in the world worse than smoking," says a prominent physician. Nor in the next one, either, for that matter.

So long as ninety per cent of our nation's teeming millions compose the toiler, that long will the voice of the masses be power.

Dr. Strouse Returns.

Frends of Dr. Clarence B. Strouse, the evangelist who established the Florida Winter Bible Conference and Gainesville Chautauqua, and who spends the greater part of his time here, are glad to welcome him again, after an absence of about three months in various sections of the country.

Dr. Strouse, at the closing of the Chautauqua here, went to Dallas, Texas, where, with Rev. George Stuart, he conducted a series of most successful meetings. At the conclusion of these meetings he visited many other cities, coming from Chicago to Gainesville.

Mr. Dow is Out.

Friends of W. E. Dow, who has been suffering for the past few weeks with paralysis, were surprised but delighted to see him out Thursday and Friday, having come down in a buggy. He was showered with congratulations.

Mr. Dow's recovery has been slow but steady, and his friends hope to see him entirely well in a few weeks.

Irregularity is bad in every department of life, in meals, in sleeping hours, but especially when it is a question of womanly habit. Not only is it a sign of female disease, but, unless cured, it will cause dangerous troubles, because of the poisons thus allowed to remain in the system.

This beautiful little city is located in the center of the timber, turpentine, truck-growing and phosphate section of wiregrass Florida, and its growth in the past five years has been marvelous. Gainesville has never been on a boom, but has had a steady, substantial growth that has made it the largest interior city in the State, and as the future is better than the past, it will only be a short time before it will rank among the largest cities in the State.

Gainesville has three trunk line railroads that go to make it a good town, and is the highest point in Florida.

Miss Dean Entertains.

At her home in East Gainesville Thursday evening Miss Carrie Dean delightfully entertained a number of her friends in honor of Miss Bessie Galloway, who is visiting here.

The evening was spent in a most enjoyable manner, one of the features being an "observation contest," in which each young man had to give a written description of his young lady partner, and each young lady a description of the young man. This naturally aroused great interest and enthusiasm.

Other things also lent pleasure to the occasion, such as vocal and instrumental solos, recitations, the customary amount of conversation, and what we all enjoy—the refreshments.

At a late hour the guests departed, being much delighted and greatly indebted to Misses Dean and Galloway for the pleasure of the evening.

Grove Park to Celebrate.

The good people of Grove Park, determined not to be outdone in patriotism by other towns of the county, have decided to hold a basket picnic on the Fourth of July. The day will be passed in an enjoyable manner, one of the principle features being a large pavilion, which will afford ample room for dancing.

A cordial invitation is extended to all to come and bring well-filled baskets.

There Are Few

People who know how to take care of themselves—the majority do not. The liver is a most important organ in the body. V. C. Simpkins, Alba, Texas, writes: "I have used Herbine for Chills and Fever and find it the best medicine I ever used. I would not be without it. It is as good for children as it is for grown-up people, and I recommend it. It is fine for La Grippe." Sold by W. M. Johnson.
